# 7<sup>th</sup> FerryBox Workshop

## Background

*Today FerryBoxes are advanced well-established systems with a significant contribution to the marine observations in EU waters. The dynamic evolution seen during the last years is associated with a number of challenges such as the integration within the existing networks; data management issues in consideration with the EU initiatives (Copernicus, EMODnet); the design and production of FB specific sensors; and last but not least the scientific value of FB measurements.*

## Themes

-  **Status of application of FerryBoxes in different regions**
-  **Integration of FerryBox systems in observation networks**
-  **FerryBox data management and quality control**
-  **New sensors and their application in FerryBox systems**
-  **Scientific applications of FerryBox measurements**
-  **FerryBox data and models**

## Registration and abstract submission

Participation at this meeting is free of charge, but limited to 80 people. For registration please use the link.

[https://docs.google.com/spreadsheets/d/1FtVahqLOZI7YH1eo8BUIdXBYsSmS\\_wfoa6RxXFILZTJM/edit?usp=sharing](https://docs.google.com/spreadsheets/d/1FtVahqLOZI7YH1eo8BUIdXBYsSmS_wfoa6RxXFILZTJM/edit?usp=sharing)

Priority will be given to those active in FerryBox community. Companies may participate as exhibitors (please, contact organizers), by supplying 500 Euro fee.

## Dates and deadlines

**Abstract submission:** 31 January 2016

**Abstract acceptance:** 29 February 2016

**Preliminary program:** 15 March 2016
