

Med Sea Re-analysis:  
the past history of the Mediterranean Sea from observations and model

*INGV invites you to attend the side event*

## The Mediterranean Sea Reanalysis

*Reanalysis time series are currently required by different research, public and private users for the management of the marine environment, risk assessment and sustainable exploitation of marine resources. This side event will illustrate the methodologies for reanalysis and their usage in different application areas.*

**Date: 27 October 2014, 14.30 – 18.00**

**Venue: Hydrographic Institute of Portugal, ROOM B**

### Programme

#### Invited talk :

#### Reanalysis products, the global ocean case

**A. Storto**, Centro Euromediterraneo sui Cambiamenti Climatici and Istituto Nazionale di Geofisica e Vulcanologia, Bologna, Italy

#### MyOcean reanalysis : 1987 – 2012

**S. Simoncelli**, Istituto Nazionale di Geofisica e Vulcanologia, National Group of Operational Oceanography, Bologna, Italy

#### NextData Reconstruction-Reanalysis : 1953 – 2012

**C. Fratianni**, Istituto Nazionale di Geofisica e Vulcanologia, National Group of Operational Oceanography, Bologna, Italy

#### Usage of Mediterranean reanalysis products for Good Environmental Status Assessment

**N. Pinardi**, Department of Physics and Astronomy, University of Bologna, Italy and Istituto Nazionale di Geofisica e Vulcanologia

#### Open discussion on reanalysis user requirements

**Luca Carra**, Scienzainrete
