

**EuroGOOS Executive Board Meeting**  
**29 January 2019**

**Agenda Item 9:** Strengthening current member involvement

**Meeting Document 9.4:** Overview of the IO-PAN's suggestion

## Rationale and background

A proposal came forward from IO-PAN, EuroGOOS Member, to involve EuroGOOS in the Sopot Science Days. This can later serve as a best practice to engage with other members in their activities targeted at the next generation of scientists and broad public.

## Key points

On 6-8 June 2019, IO PAN organizes Sopot Science Days:

Page | 2

- 6 June: conference for school children;
- 7 June: Sopot Youth Conference, organized by Sopot Science Association together with IO PAN;
- 8 June: Science Fair in the city center.

It is proposed that EuroGOOS becomes involved the Sopot Youth Conference on 7 June, titled *Where the world is heading*, and the Science Fair on 8 June, themed *Ocean of changes*.

The Youth Conference will be at its the 11th edition; it is titled *Where the world is heading* and is for university and PhD students. Every year the conference includes at least 20 marine-related presentations. IO PAN wishes to internationalize the conference and proposes to EuroGOOS to get on board to help this process.

This conference resulted in three Springer books. There is an opportunity for this in 2019. The books from previous years include:

<https://www.springer.com/gp/book/9783319717876>;  
<https://www.springer.com/gp/book/9783319142821>;  
<https://www.springer.com/gp/book/9783319036823>.

Information from the 2018 edition is enclosed with this document and the visual recording is available here: <https://www.youtube.com/watch?v=NNIYs8fee2I>.

It is proposed that EuroGOOS becomes one of the organizers of the conference in 2019. Logo and information about EuroGOOS will be included on all materials. Glenn Nolan is invited to become a member of the scientific committee and give the opening lecture on 7 June. There is no financial contribution requested from EuroGOOS. EuroGOOS could also use this opportunity to present the 2019 Kostas Nittis award. EuroGOOS can receive exhibition space at the Ocean fair on 8 June.

There are other awards given to students: (i) by IO-PAN director for best presentation in Earth Sciences; (ii) by the GeoPlanet Polish Academy of Sciences consortium for the best poster; (iii) by the Sopot Science Association for best social sciences. Each award is at a level of c. 200 Euros and there is no conference fee. EuroGOOS will be free to follow the Kostas Nittis Award terms of reference.

## INTERNATIONAL SOPOT YOUTH CONFERENCE

### Entitled: WHERE THE WORLD IS HEADING

The Sopot Science Association (SSA) welcomes contributions to the third edition of the International Conference entitled Where the World is Heading. This conference is the continuation of the Sopot Youth Forum. Since 2008 over 300 scientists from different countries have presented their work during the Forum.

We invite young scientists or science enthusiasts, university students, Ph.D. students and young doctors to present their work, visions, opinions, and thoughts. The Sopot Youth Conference consists of two thematic blocks: humanities and social sciences and the second one-natural and physical sciences. **Both oral (15 minutes) and poster presentations are welcome. In justified cases of foreign participants, the Scientific Committee may consider Skype presentations. Number of such cases will be limited.**

Due to the multidisciplinary character of the Sopot Youth Conference abstracts and presentations should be prepared in an intelligible manner. **The Conference language is English.**

**Our Conference Proceedings are registered, and have an ISBN, and thus can be cited.**

**Just like in previous editions this year the best presentations will be granted FINANCIAL AWARDS.**
